Kernow Garden

Gardens of influence

Value added plants

The Pascoe formula

What is a value added plant?

- A plant used with more than one dimension
- A great degree of reliability
- Usually more than one season of interest
- Ease of maintenance

A value added plant-Acer griseum

5

Autumn colour

A plant that has little added value

Value added plants

= value added gardens

What is the value of this Landscape?

Landscape Design Concept

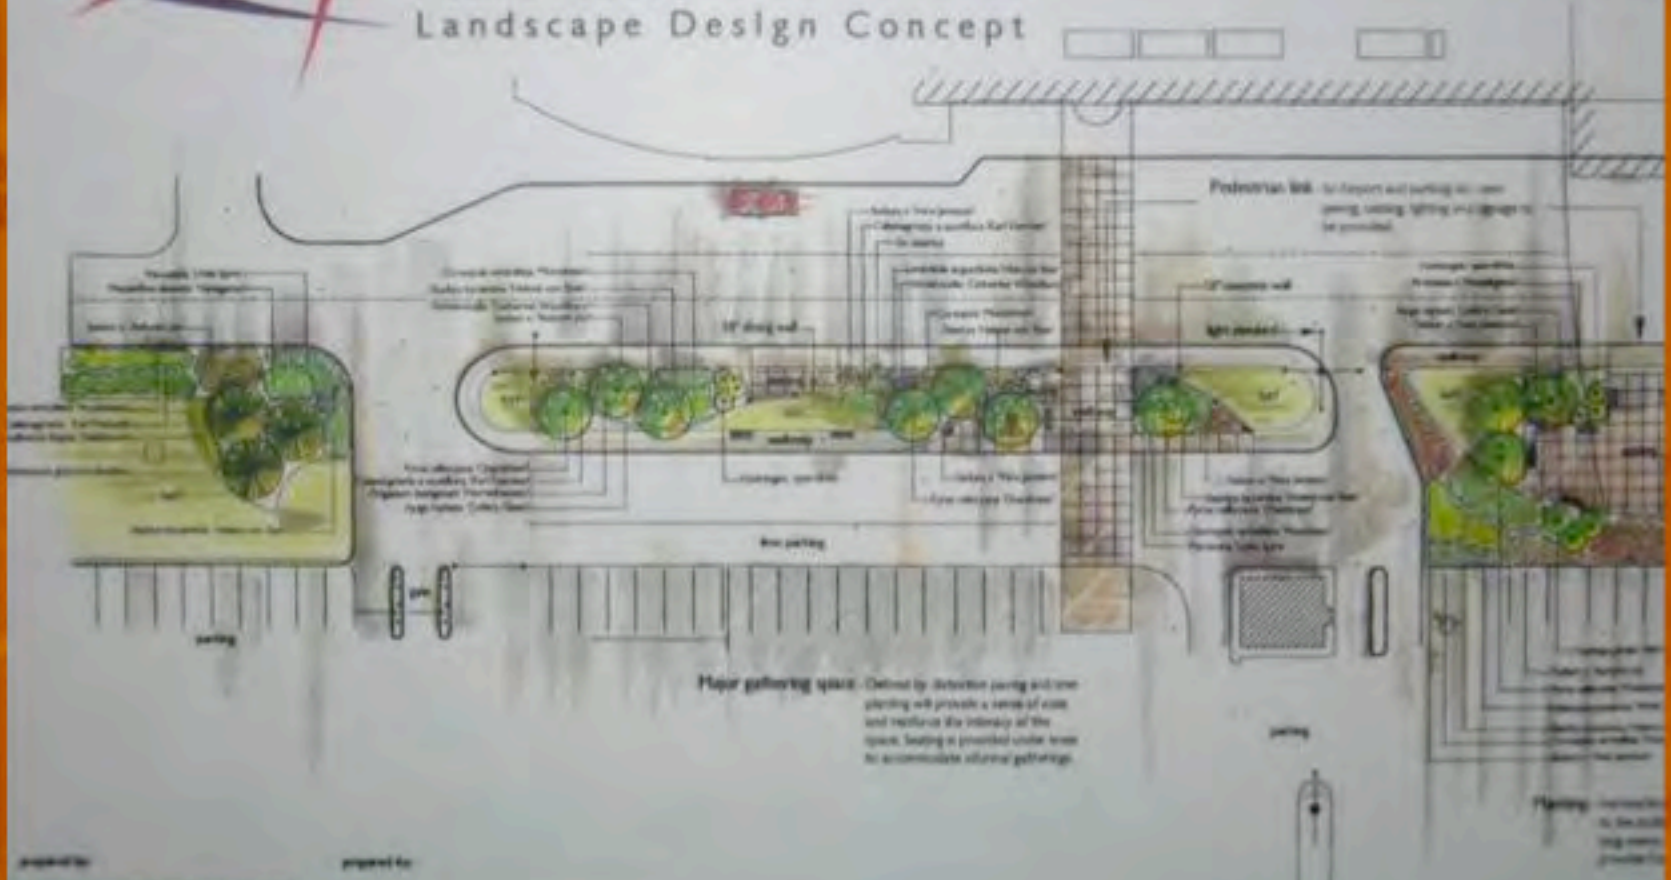

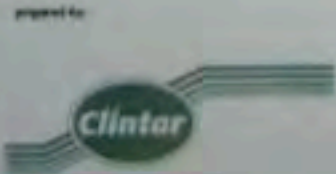

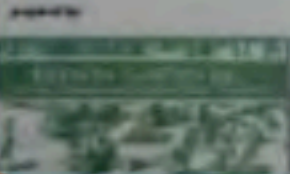

LONDON INTERNATIONAL AIRPORT

Landscape Design Concept

Professional Groundwork: *Access to the building*
using ground level

Hair gathering space: Defined by detection paving and tree planting will provide a sense of ease and reinforce the intensity of the space. Seating is provided under trees to accommodate informal gatherings.

The Result: Following the shape of the road, using continuous paving areas and modern personal storage will draw your attention to the building facade and set the scene for the new aviation. The landscape

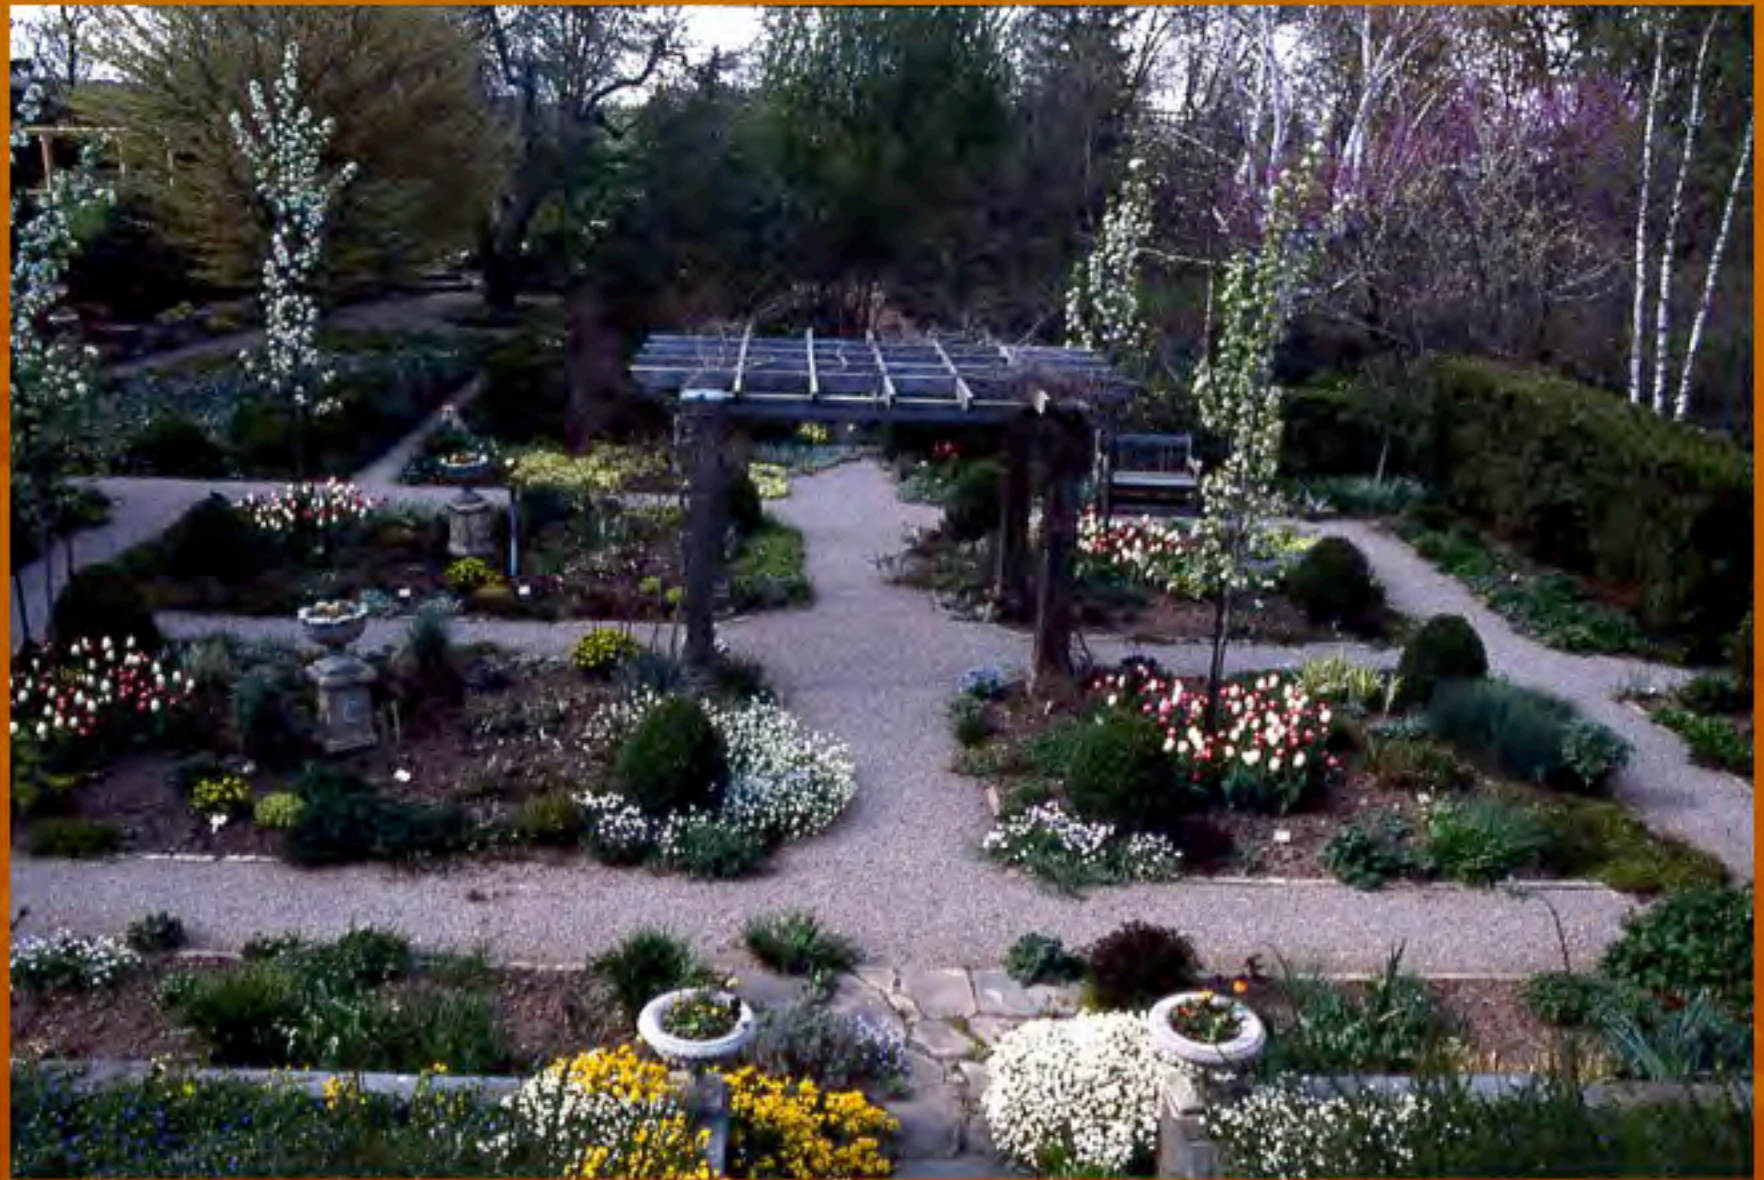

The Result: The landscape will be done in stages, starting with the most visible areas.
